

WeatherRail[®]
Aluminum Railing

**Maintenance Free
Railing Systems**

WeatherRail is designed to meet all your needs for both residential and commercial railing applications using a combination of prefabricated and modular railing components. Available in both Glass and Picket styles, this system is designed for an attractive yet durable installation.

Builders, Architects and Homeowners alike can appreciate the simplicity and design flexibility that the **WeatherRail** System has to offer. Components of the system are interchangeable, allowing you to create a railing that is all glass, all picket or a combination of the two. **WeatherRail** truly adapts to any design.

Maintenance Free

The **WeatherRail** System is designed to be virtually maintenance free. All components are coated with a polyester powder coating that can withstand the harshest elements. Never again will there be a need for the yearly, time consuming chores of painting and sanding. The **WeatherRail** system won't rust, rot, crack, split, blister, peel or ever need repainting. An occasional wash with soap and water to reduce dirt and grime build up is all that's necessary to keep your aluminum railing looking great for years to come.

Strength

All **WeatherRail** components are fabricated using high grade extruded aluminum, which creates the ultimate combination of strength in a sleek yet practical appearance. The **WeatherRail** system has been engineered and tested to meet all North American Building Codes.

Versatility

Using a combination of prefabricated and custom components the **WeatherRail** system can be adapted to fit almost any application imaginable. With a choice of Picket, Glass or a combination of the two in 7 standard colors or over 200 custom colors there is a WeatherRail design to fit the scheme of any building.

Also Ask about our Weatherdek Waterproof Walking Surfaces for Decks, Patios, Steps, Walkways and much more. Weatherdek Membranes offer Total Waterproofing Protection with an attractiveness and durability not found in any other deck surfaces. Give us a call today and see how a combination of Weatherdek Walking surfaces and **WeatherRail** Aluminum Railing systems can enhance your outdoor living space.
